

BC 704 Polyol

Product Description:-

BC 704 is ISO 141B based polyol. It is designed for the production of polyurethane rigid foams for manufacture of insulating panels through discontinuous process. The resulting foams are combustion modified and classified as B2 foam according to DIN 4102.

Processing profile:

	Units	Value
Polyol/Iso Temp.	°C	20-30
Mould Temp.	°C	40-50
BC 704 Polyol	pbw	100
BC 768 isocyanate	pbw	120

Handling & Storage:

	Units	BC 703	BC 768
Storage temperature	°C	15-25	15-25
Shelf life *	months	6	6

Packaging:

BC 704 : 250Kg Metal Drum BC 768 :220 Kg Metal Drum
