

BC Pigment 400

Product Description:-

A concentrated pigment paste based on resin and selected color pigments. It is formulated for tinting polyurethane, nitro products, matt or gloss.

Advantages:

Different colors to choose from, easy to formulate RAL color standards and can be blend with other color to modify the shade of PU and NC products. Pigments used are of good quality and highlight fastness.

Safety Considerations:

I Safety Data (MSD) sheets are available from the BCI Chemical industry. SDS sheets are provided to help customers satisfy their own handling, safety and disposal needs and those that may be required by locally applicable health and safety regulations. SDS sheets are updated regularly, therefore, please request and review the most current SDS sheet before handling or using any product. These are available from the nearest BCI sales office.

Customer Notice:

BCI encourages its customers to review their applications of BCI products from the standpoint of human health and environmental quality. To help ensure that BCI products are not used in ways for which they were not intended or tested, BCI personnel are willing to assist in dealing with ecological and products safety consideration. Your BCI representative can arrange the proper contacts.

Physiological Hazards:

PIGMENT PASTE HD does not contain dangerous solvents, nevertheless, good ventilation in working rooms is recommended as well as the use of safety tools and equipment. PIGMENT PASTE HD is flammable and harmful if swallowed. If contact with eyes or skin occurs, wash well with fresh water and seek immediate medical advice.
