

Isocyanate BC TS-2009 (Isocyanate terminated prepolymer)

Product Description

Iso BC TS-2009 is an isocyanate terminated prepolymer based on modified 4-4 diphenyl methane Diisocyanate

TYPICAL PROPERTIES

Appearance at Room Temperature	Clear Viscous Liquid
Color	Light pale to Yellowish
NCO Content	22.5
Viscosity at 35°C	250-300
Specific gravity at 35°C	1.2-1.23

APPLICATION

BC TS-2009 Isocyanate can be used as raw material in the formation of elastomers, microcellular shoes, soles, integral skin and semi flexible urethane foam. As with any product, use of TS-2009 in each application must be tested.

PRECAUTIONS

Usual precautions when handling industrial chemicals must be observed, avoiding eye or skin contact or ingestion.

STORAGE

Recommended storage temperature 15-45°C, within this range, a storage temperature of about 25 °C will maximize the storage life of this product. Shelf life 6 months from the date of production, when stored in sealed original containers under conditions stated above.
